THE VALLANCE NURSERY

81 Glen Avenue (one block from 40th St. and Piedmont Avenue), Oakland, California

We are succeeding the Nursery department of C. O. Morse & Co., and are continuing the business at the old location, 81 Glen Avenue, just one block from 40th Street and Piedmont Avenue. Prospective customers and those interested in plants are invited to call and inspect our stock and consult us about planting at all times.

Our experience in planting Ornamental Grounds and Orchards, extends actively over 25 years in California.

We are glad to consult with you about your planting problems.

GREENHOUSES and SALESYARD are situated on GLEN AVENUE, off Piedmont Avenue, OAKLAND, CAL. Visitors from San Francisco can reach there by taking the new Key Route Ferry (foot of Market Street) to PIEDMONT STATION; those from Oakland, by taking the Piedmont Avenue cars on Broadway to Glen Avenue. NURSERY TELEPHONE, PIEDMONT 30.

ORDERS. Please remember that when busy season commences the Nursery is rushed with orders. It may be a few days before orders can receive attention. Rest assured that there will be no unnecessary delay in shipping.

Prices quoted herein are f. o. b. cars, Nurseries, and cancel all previous quotations.

CLAIMS. Should any errors occur we desire to be informed upon receipt of goods, in order that we may rectify them without delay. All claims must be filed within 10 days after the arrival of the shipments.

THE VALLANCE NURSERY give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any plants or trees they send out, and will be in no way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

PACKING. Sufficient money should be added to remittance to cover cost of boxing, etc.—say, 10 per cent of purchase; also, if desired by parcel post, add postage.

SUBSTITUTION. It should be stated whether and to what extent substitution will be allowed in case the order cannot be filled to the letter. Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible.

GUARANTEE. We do not guarantee stock to live, nor will we replace free of cost that which dies or fails to grow. We do guarantee, however, that all Nursery stock will be in good, live and healthy condition upon departure from the Nursery.

NURSERY STOCK can go by parcel post, if customer lives too far from express office. If desired by post, please add postage.

Terms: Money can be sent by money order or personal check.

ACCEPTANCE OF ORDERS. We accept all orders on condition that same shall be void should injury befall our stock from fire, frost, floods, drouth or any other cause which could not be prevented and over which we have no control.

ROSES OF GREAT MERIT

The plants that we offer are all two-year-old, strong field grown and will bloom the first spring. 75c each, \$7.50 per dozen, except where noted OTHERWISE. If desired by mail, please allow for postage.

AUTUMN TINTS

Coppery red, shaded orange and salmon, of very great excellence.

BILLARD ET BARRE

Clear canary yellow; buds and flowers large cupped shaped. This is an unique shade, and is of great merit.

BRITISH QUEEN

Pure white; buds beautifully formed; with pointed center and reflexed outer petals. A lovely rose.

C. W. COWAN

The color is warm carmine cerise; the blooms large, full, imbricated in form and very freely and continuously produced. Delicious tea rose perfume.

CHEERFUL

Pure orange-flame, with distinct orange-yellow base; lovely in every way.

CLIMBING HOOSIER BEAUTY

Rich velvety crimson, which does not fade; buds are long and pointed.

CLIMBING RICHMOND

Rich velvety scarlet, buds long and pointed; a very strong grower.

CLIMBING SUNBURST

Rich yellow, shaded with orange and copper; a strong vigorous grower.

COLUMBIA

A very pleasing shade of pink; sweetly scented, and free flowering; habit of plant strong and vigorous.

CRIMSON QUEEN

A wonderfully glowing crimson, which does not fade; flowers produced very freely, and for a long period.

DUCHESS OF WELLINGTON

Intense saffron yellow; a very beautiful color; buds long and pointed; exceedingly free in bloom.

DUCHESS OF WESTMINSTER

Clear, rose-pink, very large and full, sweetly perfumed, highly commendable.

G. AMEDEE HAMMOND

Cadmium or deep apricot, shading off to fawn or delicate buff; blooms large; full and perfectly formed, carried on erect stems. Very floriferous and fragrant Gold Medal Rose. \$1.50 each.

GEORGE DICKSON

The color is velvety black scarlet-crimson, with a brilliant scarlet reflexed tips, with heavy and uniquely pure crimson-maroon veining on the reverse.

GEORGE ARENDTS

Delicate pink; large flowers; a beautiful rose which we can recommend highly.

GOLDEN EMBLEM

Color rich deep golden yellow, tinged with coppery orange; it is a continuous bloomer and sweetly scented; of free and branching habit with lovely glossy foliage. \$2.00 each.

GEORGEIOUS

Deep orange yellow, heavily veined with reddish copper; color unique and very beautiful. Gold Medal Rose. \$1.00 each.

GRACE MOLYNEUX

A beautiful shade of creamy apricot; very charming.

HADLEY

Dark velvety crimson; very fragrant.

HOOSIER BEAUTY

Glowing crimson scarlet with darker shadings; texture like velvet; deliciously fragrant. The buds are long and pointed, borne on long stiff stems.

IONA HERDMAN

It is clear orange-flame, the flowers are carried on good long stems, and is beautiful in bud, and when full bloom it is a continuous bloomer; the growth of plant is also ideal; the foliage is bright glossy green.

IRISH FIREFLAME

Old gold; flushed crimson; buds long and pointed; foliage rich and glossy; plant strong grower. A very charming rose.

ISOBEL

This lovely acquisition to the single roses will surely be welcomed by all rose lovers. It is an exquisite shade of pink flushed orange scarlet; center of flower pure rich yellow; the combination of colors cannot be adequately described, it must be seen to be fully appreciated; fragrance is charming. **\$1.00 each.**

JOSEPH HILL

Pink, shaded salmon, outside petals coppery pink; a most superb shade; flowers large and double. One of the best recent introductions.

JULIET

Outside of petals old gold, center rich, rosy red, changing to deep rose as the flowers expand.

LADY HILLINGDON

Blooms continuously, buds very long with a most pleasing shade of orange yellow. Particularly fine in the bud state.

LOS ANGELES

The originator (Fred S. Howard) describes Los Angeles as "a flame pink, toned with coral and shaded with translucent gold at the base of the petals." **\$1.00 each.**

LYON ROSE

One of the judges who awarded the gold medal to this rose says: "I have no hesitation in recommending it as the most wonderful color yet obtained among roses. This may be best compared to the intense flame color seen in a glowing coke furnace."

MADAME CHARLES LUTAUD

Large, full and globular flower, fine long bud of a nice ochre yellow, carmine tinted, carried on long flower stalks. The progeny of an unnamed variety crossed with Marquise de Sinety.

MADAME MELANIE SOUPERT

Salmon yellow, suffused carmine; buds long and pointed; when open the flowers resemble a semi-double paeony.

MADAME HERRIOT

"Daily Mail Rose"

Coral red, shaded yellow at base, passing to shrimp red; a very beautiful combination of colors.

MADAME SEGOND-WEBER

A highly satisfactory rose, ever-blooming and hardy. Flowers are very large, full and fragrant; a warm, deep pink—although a lighter shade of salmon-flesh in the bud form.

MARQUIS DE SINETY

Yellow flushed orange, buds pointed; open flowers cupped; fragrance rich and pronounced, a very beautiful sort.

MISS LOLITA ARMOUR

Color of this new rose is distinct from all others. The flowers are large and full, with petals of great substance and sweetly scented; as the flowers expand they develop to a deep coral red with a golden red suffusion; a vigorous grower and free bloomer. **\$2.50 each.**

MME. COLETTE MARTINET

A vigorous growing variety; long golden-yellow bud opening to a beautiful old-gold, shaded with orange-yellow; attractive bronzy-green foliage. **\$1.00 each.**

MRS. WEMYSS QUINN

Intense lemon-crome, suffused orange, which gives it a rare depth of color, which never fades out; flowers and buds ideal; long bloomer; habit of growth perfect.

MRS. AMBROSE RICCARDO

Varying in color from a deep honey-yellow with soft but glowing rosy suffusion to a soft saffron-yellow; of great size, the largest of its type. A magnificent, delightfully fragrant rose, and remarkably free-flowering. **\$1.00 each.**

MRS. WALTER EASLEA

Glowing crimson-carmine, back of petals satiny crimson; blooms large, full; imbricated form and freely produced; deliciously perfumed. **\$1.00 each.**

MRS. H. STEVENS

A grand pure white; buds and flowers exquisite, which are produced for a long period in great profusion. Highly commended.

MARGARET MOLYNEUX

Varying from saffron-yellow shaded apricot and peach in the bud stage to canary-yellow as the bloom ages and expands. The blooms are semi-double and produced in trusses.

NATIONAL EMBLEM

Very dark crimson; rich velvety shadings; full moderate sized flowers; a very valuable bedding variety.

OLD GOLD

Coppery orange; tips of petals tinted red and apricot; buds pointed.

General MacArthur

OPHELIA

Salmon flesh, shaded rose, center of flower showing pronounced coloring of chamois; buds long and pointed; very free in bloom.

QUEEN MARY

Creamy ground, pencilled and flushed carmine, with an underlying shade of yellow; a wonderful combination of colors; it is extremely free in bloom; of dwarfish habit, thus making it a fine sort for bedding purposes.

WILLOWMERE

Rich shrimp-pink, shaded at center with yellow, edged rosy carmine; a very lovely variety.

Fukien, China, April 2nd, 1921.

I wish to send thanks for the careful packing which brought the trees here in fine condition. There were delays at Shanghai and Foochow, so that the box did not arrive here until nearly two months after the date shipped from Oakland. However, when the trees were unpacked everything was found to be in good condition.
 P. H. P.

Cebu, Philippine Island, March 30th, 1921.

I am pleased to state that the roses reached me in perfect condition.
 A. P. T.

Chekiang, China, May 15th, 1921.

The fruit trees and grape vines were safely received; the trees were very good and plump.
 M. L. C.

San Angel, Mexico, May 16th, 1921.

I am very well satisfied with your roses which arrived in fine condition. Your plants are the best I have ever received from the United States. I congratulate you on your packing.
 A. M. C.

Moji, Japan, May, 1920.

I received this morning the parcel of roses. They were 50 days in transit, and out of the 54 sent, only one was dead.

Our method of packing for foreign shipments, as is evidenced by the above letters, is of the very best, and we solicit orders from Mexico, Central America, China and Japan.

FRUIT TREES AND SMALL FRUITS

The California Cultivator (a paper devoted to horticulture in this state) submitted to us the following questions and asked us to give them an answer thereto. As they bear very greatly on fruit tree planting in California, and we receive such questions daily from intending planters, we thought we would help planters by giving the questions and our reply. We know it will be of great assistance to the novice in fruit tree planting:

1. How many months are included in the best planting period, i. e., how early may fruit trees be taken from nursery in fall and how late may they be planted?

1. Late December, January, February, and early March.

2. Where is it best to plant them, i. e., can you give a general idea as to planting figs, apples, pears, cherries, walnuts, peaches, and such other fruits? Of course, if you covered all the fruits, this would take too much time, but whatever information you can give is greatly needed by tree planters. Orchard after orchard has been set out, only to prove a failure because owners did not understand this question.

2. Figs should be set out in the warmer sections, principally the San Joaquin and Sacramento Valleys, and the other fruits mentioned can be planted from Mendocino to San Diego. The intending planter, however, must use his own judgment about the best locations for each of these fruits.

3. What age and size of tree is best?

3. The best tree to plant out is what nurserymen call "one-year-old" trees; the root is a year older, so this practically makes the trees two years old, but nurserymen style them "one-year-old," either three to four feet high or four to six feet high.

4. How large and how deep should holes be?

4. In sedimentary land, the hole does not require to be so very large, 1½ feet square will cover it. In heavier soil two feet will be necessary.

5. Is it best to plant any deeper in well-prepared soil than tree was set in nursery?

5. Plant a little deeper than what they were in the nursery—not more than one inch.

6. Would you recommend close pruning of roots before planting or simply trimming mutilated ends? If you favor close trimming of roots, would you go to the extremes recommended in the Stringfellow method?

6. We recommend medium cutting back of the roots. We would not go to the extreme as Mr. Stringfellow does, although we practice it a great deal in our nurseries when we are lining out young stock, and have good success with it.

7. Would you top trees, i. e., take off greater portion of top grown in nursery, and if so, before or after setting? Would you do it by exact measurement the orchard over, or according to vigor of trees?

7. Trees should be pruned after planting, not before. They should be cut back about to 2½ to 3½ feet; peaches and almonds should have some of the laterals left; prune these to two or three inches from the stem; the main stem has often blind eyes; apricots, prunes, pears, apples and plums can be trimmed to single stem.

8. If irrigation water is available, would you settle dirt about the trees with water or by tamping?

8. In the drier sections it is a good idea to use irrigation to settle the soil around the roots after planting, but in the northern parts and in the Santa Clara Valley, where the rainfall is good during the months of January and February, this is not necessary. Work the soil carefully around the roots; in light soil heavier tamping can be done than in heavy, wet land.

9. Would you advise use of fertilizer or manure, either in hole or on surface, at time of planting?

9. In planting large orchards no fertilizing is done.

10. Is any advantage gained by protecting trunks of newly planted trees from rays of sun? If so, what method is best?

10. It is very necessary to protect the trunks of young trees during the first summer months, either by tulle tree protectors, shakes set on the sunny side, or by wrapping newspaper and tying with a cord. This keeps the tree from getting sunburnt and is certainly of great benefit to the young tree.

APPLES

Price, 4 to 5 feet, 75c each; \$6.50 per 10.

ASPARAGUS ROOTS

\$2.50 per 100.

DISTANCES FOR PLANTING FRUIT TREES

Standard Apples.....	25 to 30 feet apart each way
Standard Pears.....	24 to 30 feet apart each way
Cherries	24 to 30 feet apart each way
Standard Plums and Prunes.....	24 to 30 feet apart each way
Apricots, Peaches, Nectarines.....	24 to 30 feet apart each way
Grapes	7 to 10 feet apart each way
Walnuts	40 to 50 feet apart each way
Currants and Gooseberries.....	4 by 6
Blackberries and Loganberries.....	3 to 4 by 5 to 7

Strawberries for Field Culture.....	1 to 1½ by 4 to 5
Strawberries for Garden Culture.....	1 to 2 feet apart

To find out how many trees it takes to plant one acre—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of plants or trees to the acre.

Bartlett Pear

Crawford Peach

DAHLIAS

AMBER QUEEN (Pom.). Amber yellow; 35c each.

QUEEN MARY (Dec.). Velvety pink; 35c each.
RUTH GLEADELL (C.). Soft yellow, shading to apricot; 75c each.
SANTA CRUZ (Dec.). Yellow suffused pink; 35c each.
SEABRIGHT (D.). Old gold; 50c each.
THE MILLIONAIRE (D.). Delicate lavender with faint pink shading, very large; \$1.00 each.
TOM LUNDY (C.). Velvety garnet, very fine; 50c each.
WODAN (C.). Salmon-rose and old gold; 50c each.
 Dec. stands for decorative types, C. for Cactus, P. for Paeony, Pom. for Pompon.

SPRAYING FORMULAS

Bordeaux Mixture—(For Curl Leaf, Shothole Fungus and Apple Scab.) This fungus is familiar to all orchardists, and is especially severe on some varieties of the peach more than on others. In the latest experiments, the following remedy has proved the most effectual:

Copper Sulphate (Bluestone).....	4 lbs.
Fresh lime	5 lbs.
Water	50 gals.

Dissolve the Copper Sulphate (Bluestone) in a barrel containing 10 to 12 gallons of water. Slake the quicklime and thin to a creamy whitewash. Pour the whitewash very slowly through a wire screen into the copper solution. Stir the mixture thoroughly, and add enough water to make 50 gallons in all. Stir occasionally while applying as a spray to the trees.

In the preparation of the Bordeaux mixture it is necessary that the ingredients should be mixed in a wooden vessel. If an iron vat is used, the copper will go to the iron, and the effect of the spray is largely neutralized. Apply the remedy cold and as soon after it is prepared as possible. Never allow it to stand overnight.

For Brown Rot, on apricot trees, apply Bordeaux Mixture, as flower buds are about to swell, once only.

FOR RED SPIDER OR YELLOW MITE ON DECIDUOUS TREES

Soon after the trees are in leaf in spring, and while they are damp with dew in the morning, thoroughly dust them with sulphur. Use sulphur bellows, or, if the orchard is extensive, fix up a broadcast seeder on a wagon.

LIME, SULPHUR AND SALT WASH (For winter use upon Deciduous Trees.)

For Brown Apricot scale, and as a preventive of curl leaf on peach trees, the following formula and directions, if properly carried out, will produce an effective remedy:

Unslaked lime	40 lbs.
Sulphur	20 lbs.
Stock salt	15 lbs.
Water, to make.....	60 gals.

Directions.—Place 10 lbs. of lime and 20 lbs. of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for not less than one hour and a half, or until the sulphur is thoroughly dissolved. When this takes place, the mixture will be of an amber color. Next place in a cask 30 lbs. of unslaked lime, pouring over it enough hot water to thoroughly slake it; and while it is boiling, add the 15 lbs. of salt. When this is dissolved, add to the lime and sulphur in the boiler, and cook for half an hour longer, when the necessary amount of water to make the 60 gallons should be added.
